

Successful Change

... how to?

How real is reality ?

You perceive what you believe

You ignore
what doesn't fit your beliefs

Don't believe everything
you think

Do you think
this picture has been
created on a computer?

A blurred landscape photograph showing a sunset or sunrise. The sky is a mix of blue, purple, and pink. The foreground is a field of tall grasses or reeds, and there are trees in the middle ground. The overall image is out of focus, creating a dreamy, ethereal atmosphere.

It's a shot
out of a series
of normal landscape pictures

I too could hardly believe it

Think unthinkable Thoughts

What keeps you stuck is

beliefs - delusion - programming

Successful Change
takes place
differently than expected

non-linear and
sometimes like a miracle

Miracles are
surprising - unexpected - wonderful

The only limit is your beliefs

Allow Miracles to happen

Let go and let God
